## The Secret of a Year!

### The 12 Months, the Seasons, and the Length of Daylight

#### What Are the 12 Months?

A year is made up of 12 months.

After all 12 months have passed, one year is complete, and a new year begins!

#### The Four Seasons

The 12 months are grouped into four seasons.

##### Spring (Mar-May)

##### Summer (Jun-Aug)

##### Autumn (Sep-Nov)

##### Winter (Dec-Feb)

#### What Makes Each Season Special?

##### Spring

- Flowers bloom
- New beginnings

It's time for flowers to bloom!

##### Summer

- Hot weather
- Longer days

It stays bright for so long!

##### Autumn (Fall)

- Cooler weather
- Leaves change color

It's like the whole world turns orange!

##### Winter

- Cold weather
- Shorter days

It gets dark so early!

#### The Secret of Day Length

Here's an important secret!

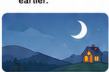

##### Summer

- The sun stays in the sky longer.
- Night comes later.

##### Winter

- The sun is up for a shorter time.
- It gets dark much earlier.

Because the Earth is tilted as it travels around the Sun.

#### The Cycle of the Year

The seasons repeat in the same order every year.

#### Connecting the Months and Seasons

This is an easy way to remember them.

##### Spring

March  
April  
May

##### Summer

June  
July  
August

##### Autumn (Fall)

September  
October  
November

##### Winter

December  
January  
February

## Quiz Time!

1 How many months are there in a year?

- 4 months
- 12 months
- 24 months

2 Match the months to the correct season.

- |               |   |                 |
|---------------|---|-----------------|
| Mar, Apr, May | • | • Summer        |
| Jun, Jul, Aug | • | • Autumn (Fall) |
| Sep, Oct, Nov | • | • Winter        |
| Dec, Jan, Feb | • | • Spring        |

3 Which season is this?

- 

4 Circle the correct answer. Why do leaves change color in the fall?

- Because it gets colder.
- Because leaves stop making food.
- Because it rains more.

5 Circle the correct answer. Why are the days longer in summer?

- The Sun is closer to Earth.
- The Earth is tilted as it travels around the Sun.
- It is hotter in summer.

6 Put the seasons in order. Write 1 (first) to 4 (last).

- ( ) ( ) ( ) ( )

7 Which season matches this description? It is cold and the days are short.

- Spring
- Summer
- Autumn (Fall)
- Winter

8 Match each season to what we usually do.

- |               |   |                       |
|---------------|---|-----------------------|
| Spring        | • | • Play at the beach   |
| Summer        | • | • See colorful leaves |
| Autumn (Fall) | • | • Build a snowman     |
| Winter        | • | • See flowers bloom   |

9 Circle the correct answer. After December comes...

- January
- February
- March
